

Fill out chart and fax to **847/853-9028**.

AAAHC policies and procedures state that accredited organizations will receive updates to the standards and other important information. It is therefore imperative that the AAAHC has on file the most current contact information for the person you designate to receive such information. Please help us to maintain your most current contact information by completing this postcard and returning it to AAAHC as changes occur. Changes to and other important information about current AAAHC standards and additional Medicare requirements are also posted at [www.aaahc.org](http://www.aaahc.org).
